

THIS IS WHAT

FOR JUSTICE SONIA SOTOMAYOR

MUSIC & LYRICS BY EMILY ESTEFAN

VERSE

Looking up, still no one knows
What a real hero does
Stop looking up for signals advertised
Tilt your eyes a little low
Justice breathes where she is goin'
Real change is made in dirt not sky
Time to listen, we've been missin'

She is everything your daughter should be
She is everything your daughter should be

CHORUS

Now this is what an American looks like
Her last name doesn't change
All the progress that she claims her country
This is what an American looks like
She remains only brave
She is everything your daughter could be
Everything your daughter could be

VERSE

Waiting on this world to change
Tune your brain to rearrange it
Laws turn into progress everyday
Luckily for girls like me
We've had someone prove to be
A pillar of the progress that we seek
Time to listen, we've been missin'

CHORUS

Now this is what an American looks like
Her last name doesn't change
All the progress that she claims her country
This is what an American looks like
She remains only brave
She is everything your daughter could be

This is what an American looks like
Her last name doesn't change
All the progress that she claims her country
This is what an American looks like
She remains only brave
She is everything your daughter should be
