

FOSTER LOVE

FOR LYNN PRICE

MUSIC & LYRICS BY SHAINA TAUB

VERSE

I see you, child
I know you've been torn away from your
family
And everything you've ever known
I see you down there in the dark
Thinking you are nobody
Headed to nowhere alone

But don't believe that broken myth about your
soul
You have a right to reunite with the ones who
make you whole
So invite you to be strong
I'll help you find a place where you belong

CHORUS

You are my sister
You are my brother
We will champion and cherish one another
Together we will foster love
We will foster love
Together we will foster love
We will foster love

VERSE

I hear you, child
'Cause I have been down this road myself
before
I felt divided once too
But I've found my way
And I recognize my responsibility
To shine as a beacon for you

So I will offer you acceptance with no fear
I'll support you with no judgment as long as
you are here
So use your voice to find your song
You deserve a chance to sing along

CHORUS

You are my sister
You are my brother
We will strengthen and encourage one
another
Together we will foster love
We will foster love
Together we will foster love
We will foster love

You are my sister
You are my brother
We will be courageous victors with each
other
Together we will foster love
We will foster love
Together we will foster love
We will foster love
We will foster love
We will foster love
